A CONVERSATION

BEA NETTLES: HARVEST OF MEMORY

Bea Nettles is an artist who tells stories with her photographs. When you look at her art work, you might see images related to family, nature, myths, and the story of her own life. These are themes and ideas that are important to Bea Nettles.

The pictures on this card show small parts (details) of 9 of the art works in this exhibition.

- As you look at the photographs and books around the room, try to find these details.
- Then, look for this symbol on a label nearby: These special labels give you activities that can help you think and talk about the themes in Bea Nettles's art.
