Photographer's Guidelines

For the care of our collections and the historic mansion and grounds, the following guidelines must be followed at all times during photography sessions:

- Only a George Eastman Museum staff member is permitted to handle the collections.
- Photographers assume all responsibility for their equipment and must provide their own electrical power supply, as well as valid insurance liability.
- Rubber tips must be present on all tripods, stands, etc. so as not to damage the marble floors, carpets, flower beds, or lawns.
- All lights must have heat-reflective filters over their fronts. Lights must not be placed any closer than 10 feet when directed at an object.
- Sandbags/stabilizers must be used to prevent mishaps, such as tripping over cords and lights.
- If the wedding party stands on the wood section of the grand staircase, small carpet pieces should be placed on these sections to protect the wood.
- Carpet pieces are provided by the Eastman Museum.
- No alterations to the premises shall be permitted unless previously approved by museum staff.
